

To Whom it may concern,  
Please stop those interested in limiting XM's ability to compete and provide information to it's subscribers. Truth be told, XM's service is well worth what I pay for it and I feel strongly that in America broadcasters should be free to broadcast what they choose. The forces of anti-competitive protectionists should not be allowed to dictate what we as Americans can listen to through subscription radio service. Please reject the NAB petition 04-160 and allow XM to compete on a level playing field. I think that competition in the free marketplace of ideas will favor those who provide the best service. XM is so clearly superior in terms of format and technology it doesn't surprise me that their competitors would look to the government for a bail out. Eventually the technical superiority and quality of programming will eliminate weaker competition if the marketplace is allowed to do what it should.....REWARD INNOVATION AND SUPERIOR SERVICE!!!!

Yours Sincerely,

David L. Crowe
